

Marymoor Park - Audubon Trail/River Trail/Heron Trail

June 21, 2020

Delightful 2 mile loop trail. First half can be done with manual chair and is through dog park (as you continue, fewer people and dogs are seen). There is a path all around dog park that could be used with manual chair.

Gate to second half to River Trail would be difficult for solo person. Trail best done by trail chair as there are some roots blocking path (an adventurous person could try with a manual chair). The trail is not well marked on the last quarter mile.
